Rahm – Assume you saw our news. We look forward to diving in deeper on Chicago's proposal. As I think I mentioned before, everyone here was impressed with the proposal your team put together.

Many thanks,

Jay

Sorry for bothering you on a Sunday. Saw the article about Bezos charitable donation. Thought you should know I started the Chicago Star scholarship. If you get a B average in high school we make community college free. And it is the only public scholarship available to dreamers in America.

Also if you maintain the B average every college and university in Chicago offers you 40 pct off of tuition. 66pct of the students are Hispanic who take advantage of the Chicago Star scholarship.

Dear Rahm & Bruce, Thank you both for all of your efforts to bring Amazon to the city and state. I had a random thought to share with you. It is out of the box and might be politically unacceptable but thought it might be of some interest. As you know, naming rights have enormous value. Would something like Amazon O'Hare airport be of help and even be acceptable to the city and state. Best personal regards. Richard

Subject: Chicago tv/film production facility

Hello Mr. Mayor,

I wanted to bring to your attention a building on the south side of Chicago - 1334 East 79th St. - that I think would make an excellent tv/film production facility. As Netflix and Amazon continue to ramp up their development slates, I think both Jeff Bezos and Reed Hastings would be interested in purchasing the building in order to have their own production facility in Chicago. At your convenience, I thought you could pitch them on the opportunity. At 144,000 sq. feet, the building could be retrofitted for ten or eleven sound stages and still have plenty of room for offices, including a state of the art post-production office.

<http://www.loopnet.com/listing/1334-E-79th-St-Chicago-IL/9529423/>

I'd like to note, I don't have any financial interests in the old Sears building, but I am working on two sit-com projects that I hope to film entirely in Chicago. I recently had my brother, who oversaw Pinewood Studios in Atlanta for several years, check out the building. He agrees with me that the building could make a great physical production studio.

Best,

Conrad Bar
